

SWITCHES, 2 WAY SWITCHES AND DIMMERS

12/24V DC Double Sensor Switch for Wardrobe Doors

Technical Data

Maximum Power:	60 W (12V) 120 W (24V)
Voltage:	12-24V DC
Max Output Current:	5 A
Use:	Indoor
IP Protection:	IP20
Material:	Aluminium - PC
Installation:	Surface
Size:	Ø12x13 mm
Cut-Out	Ø10 mm
Life Span:	30,000 Hours
Warranty:	3 Years
Certifications:	CE & RoHS

Product description

12/24V DC Double Sensor Switch for Wardrobe Doors consists of two inductive sensors with which you can switch on or off, without the need for a switch, the 12/24V LED Strips integrated in wardrobes, shelves, display cabinets and a multitude of furniture.

Operation of the 12/24V DC Double Sensor Switch for Wardrobe Doors

Its operation is very simple, it acts as a contactless switch by which you can automatically turn on and off the LED Strips when it detects the movement of opening and closing the door. It switches off when it detects an obstacle on both sensors.

Light up your home discreetly with the 12/24V DC Double Sensor Switch for Wardrobe Doors.
